THE ITALIAN GIRL IN ALGIERS

Thursday, November 6, 2014 | 6:00 - 9:00 p.m.

For students grade 5 and above

Kauffman Center for the Performing Arts

Staged in a storybook setting and filled with a musical blend of comedy, energy, and style, Rossini’s The Italian Girl sings. This adventure takes heroine Isabella off the ship as it was originally written and into a biplane cockpit. It’s a story about an intelligent and quick-witted woman who crash-lands in an Arabic society. Calamity ensues. In the end, she saves her boyfriend and the day as she takes on an ultra-traditional patriarchal society and wins. It will be sung in Italian with English titles.
